**Protect Your People.
Protect Your Business.**

Torshel commercial shelter solutions help safeguard employees, customers, and operations when severe weather or security threats arise.

Meet Torshel

Torshel Storm Shelters is a leading company in the storm shelter and safe room industry.

We proudly provide installation shelters and services across Alabama, Arkansas, Florida, Kentucky, Louisiana, Mississippi, Tennessee, Texas, Georgia, and surrounding states.

Additionally, we sell and ship storm shelters throughout the continental United States.

At Torshel, we understand that investing in a tornado shelter is a critical decision, and we are committed to helping you make the right choice.

Enjoy our catalog and visit us online to see videos and detailed information about our exceptional storm shelters.

Sincerely,
Torshel Storm Shelters

COMMERCIAL WELDED SAFE ROOM **STORM SHELTERS**

Your employees spend eight or more hours at their workplace. For the most part, offices tend to be shielded with windows made of multiple glass slats, which are unsafe surroundings during storm. Trying to remain safe during severe weather events, such as a tornado, is futile in such conditions. Your business associates, staff, and clients deserve the proper degree of safety during tornado and panic emergencies.

We advise installing safe rooms throughout your company's facilities.

COMMERCIAL AND COMMUNITY **STORM SHELTERS**

Torshel shelters are engineered and tested to meet the highest quality standards while remaining competitively priced. All our products are rated to withstand EF5 tornadoes.

They come in various sizes and can accommodate 10 to 200 people or more per unit.

Our most common stock sizes are 6'x8', 8'x20', 10'x40', 10'x48' and 20'x48'. The standard height is 8 feet, except the smallest units.

SPECIFICATIONS

- Units meet/exceed FEMA 320, 361, and ICC 500 2023 protocols.
- Tested both by Texas Tech University and/or by Intertek.
- Cast iron door handle and Commercial Lock can open inward or outward, and can be placed on any side of the shelter.
- Bullet-resistant walls and windows (handguns).
- Wheelchair accessible.
- Anchored with 3/4" diameter x 4 3/4" - 8" L HILTI bolts, one every 12", and each one with 6,250 lb of uplift strength.
- HILTI Epoxy anchoring is also an option.
- Battery-powered LED light.
- Easy installation.

Do It Yourself

For customers far from our facilities, we offer shipping of our safe rooms to any location in the United States. You can hire a local contractor for installation or pick up the unit at our warehouse.

Please note that you need a forklift or crane to unload the storm shelter. Shipping costs vary depending on your location and the size of the shelter.

OUR COMMITMENT TO **QUALITY**

Torshel only uses **powder coating for our storm shelters** because your safety is our priority. We want to ensure that your **shelter stays strong and reliable**, even after years of use.

Choosing a shelter with powder coating means:

- **Better value over time:** Fewer repairs and longer lifespan.
- **Peace of mind:** Knowing your shelter is built to last.

CUSTOMIZED STORM SHELTER FOR **YOUR COMMUNITY OR BUSINESS NEEDS**
